

If your studio uses the FitGrid Pro App, use the template provided below to announce the FitGrid Class App in your Follow Up Emails.

## **FitGrid Pro App: Follow Up Email Template**

Hey [Student],

FitGrid, a platform we use to communicate with you, has launched the FitGrid Class App for [studio name] students to book classes, view classmates, connect with each other, establish accountability partners, create groups and much more!

Not only will you have access to cool features that will connect you to other students, but you'll also be able to connect with our team, see when we are teaching, and share information that will allow us to curate better class experiences.

Download the FitGrid Class App from the App Store or Google Play.

Once you're on the app, link to our studio, connect with me and send me a message!

Cheers,  
[Instructor name]
